

Auto-pilot for all your passwords.

LastPass remembers your passwords so you don't have to.

Passwords are behind 81% of breaches. And it's no wonder – people use an average of 191 passwords to access apps and accounts throughout the day. That's a lot to manage. Thank goodness you've got LastPass to remember all your passwords and keep them safe.

Autosave & autofill

Reliably capture every password as you log in, and LastPass fills them in when you return next time.

Access everywhere

Your account is backed up and synced where you need it.

Generate strong passwords

Create long, randomized passwords that protect against hacking.

Share effortlessly

Safely share passwords and notes with anyone.

One master Password

Remember your master password, forget the rest.

Work & personal

Have a vault for personal and work, and auto-sort passwords to the right place.
